## about this document

In this document we will explain how our ProM system works and how we use this process to make money from an evergreen digital product under the radar with very little work.

As well as showing you exactly what we do, we'll also share the exact tools we use, and explain step by step how to copy what we do, so you can do the same.

Now, before we get into the actual method we'd like to take this opportunity to address an obvious concern many of you reading this document may have...

Do you need any prior experience or any particular skills to make this work?... NO

If you are a complete beginner just looking for a way to make some extra money online without chaining yourself to the computer 10 hours a day, and without needing to immerse yourself in weeks of boring training then ProM should help.

## what is ProM

ProM is a pre configured system designed and created to pitch and sell a digital product on the user's behalf (yours if you use this system) without the user needing to know the first thing about marketing or selling.

The main process works by following a simple set of instructions and giving away one document for free, and as you will see from the ProM access area we have already created a document for you.

In this training doc we'll explain the core and the two levels to this system which we personally use, you can use both levels if you wish or you can choose to use just one, either way is fine.

## ProM system: core

The core of this system is the document (which we have already created for you (see ProM access area)). The document as you will see starts life as an editable Google doc. And while we have created the document for you there are a few minor edits to make before it's ready to start working for you.

## core: link

The first thing you will need is your affiliate link. You will need to follow the instructions below to obtain your link so you can put that link inside of the document.

The link is specific to the user (you), and makes the user money when the reader clicks and buys.

## How this link makes money

I realise that most of you reading this document right now will already know all about what an affiliate is, how an affiliate link works, what a funnel is and how an affiliate makes money when someone clicks his or her link.

But, for the benefit of those who are not familiar with this process, here's an explanation which should help you understand the process, see why the process is very simple, and understand just how much it's possible to make for doing very little.

example:

This version of ProM was initially designed to pitch and sell a product called AltDefy 383k so we will still use this product in this example so it is easy for you to follow.

*NOTE: AltDefy 383k is still used as the main example, but is now closed / not available to new customers. So the ready-made system we've created for you (which you will find in your access area) is different from the examples used.*

Now we'll assume that you already have your link and it's already added to the document (don't worry we'll be explaining all of this in a moment).

So your document is online, placed in front of one of the audiences we show you and people are already reading (the document).

- One of your readers clicks your link

- They are redirected automatically to the sales page for \*AltDefy 383k

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

- At the same time the owner of the link (the affiliate / you) is cookied.

A cookie in terms of affiliate marketing is a tiny piece of code which drops onto the prospects (the person who clicks your link) browser, and tracks any related sales originating from that original click.

When or if the prospect purchases the product then the cookie tells the platform that you referred the sale, which means you receive affiliate commission (money).

Now the really cool thing about this process when used to sell digital products is the fact that one click and one purchase can instantly turn into multiple purchases which equates to a lot more affiliate commission (money) without the affiliate (you) lifting another finger... let me explain:

## 1 sale becomes 6, without lifting a finger

Your link in this case is linked to a product offer and not just a product. A product offer can actually consist of multiple products stacked behind the first. This is called a funnel.

### **In the case of \*AltDefy 383k the funnel looks like this:**

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

AltDefy 383k - Costs: \$17

AltDefy 383k Inline Offer - Costs: \$9

AltDefy 383k Stack - Costs: \$37

AltBuzz 2.0 - Costs: \$27

AltDefy 383k Surge - Costs: \$67

AltDefy 383k VIP Ultimate Agency - Costs: \$77

The first thing that happens when a prospect clicks your link is they see the sales page for AltDefy 383k. Now if they like the look of the offer and decide to purchase, they click the button - go to the checkout, and then in the checkout they are offered the additional inline offer.

Then straight after they purchase they are then offered AltDefy 383k Stack, after that AltBuzz 2.0, then AltDefy 383k Surge, and lastly AltDefy 383k VIP Ultimate Agency.

And even though it looked like you were only linking to the main offer: AltDefy 383k with your link, what you were actually doing is linking to a complete funnel of related and linked products. The result of this is as follows...

If the customer buys the main product as well as 2 other products from the funnel the affiliate (you) will receive commission (money) for 3 products, i.e. the main product as well as the two funnel products.

If the customer purchased the main product and all the other products in the funnel, which does happen frequently, then the affiliate would receive affiliate commission on 6 products while only ever linking to one. And this happens automatically without the affiliate lifting another finger.

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

**they make up to \$182.50 a time.**

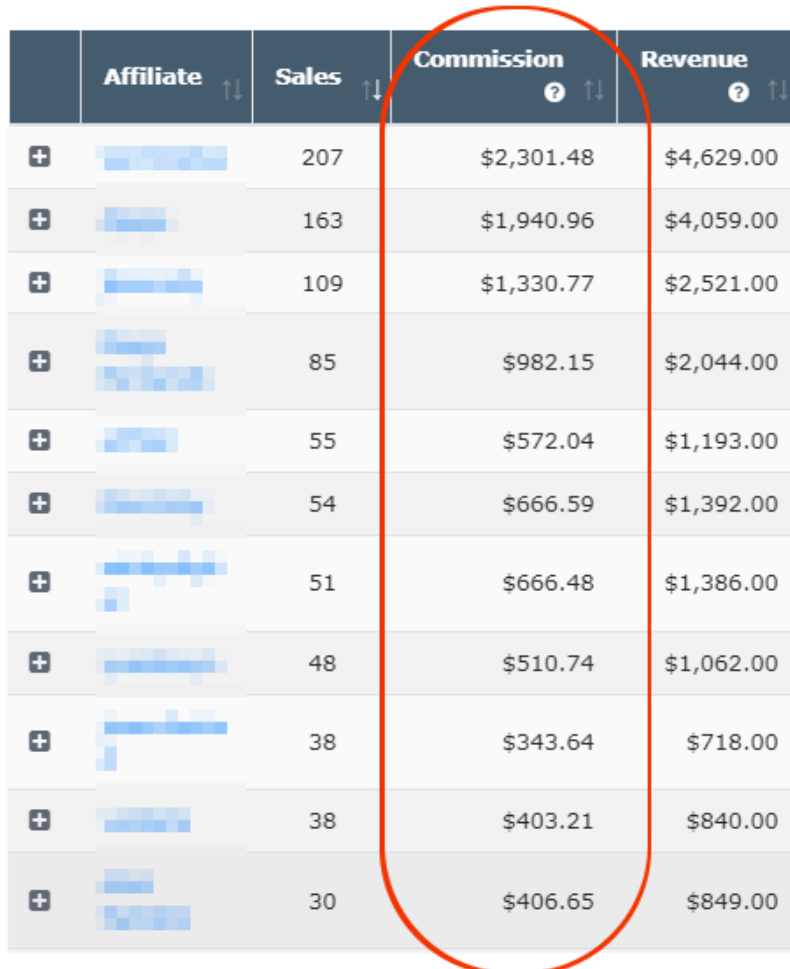

How much would the affiliate make in this example?

The amount an affiliate can make from AltDefy 383k will range from \$8.50 to \$182.50. I.e. if the customer purchased just the main product then the affiliate would receive 50% of the purchase price which is \$17 (affiliate receives \$8.50).

If the customer purchased the main product as well as every one of the related / linked products (the funnel) then the affiliate would receive \$182.50 which is 50% of the total customer spend.

Or as mentioned above if the user has the agency upgrade they will receive 90% commission (Money) on everything, instead of 50%.

This screenshot below shows the amount of money these affiliates have made over the last 30 days (see figures inside the red outline).

	Affiliate	Sales	Commission	Revenue
+	[blurred]	207	\$2,301.48	\$4,629.00
+	[blurred]	163	\$1,940.96	\$4,059.00
+	[blurred]	109	\$1,330.77	\$2,521.00
+	[blurred]	85	\$982.15	\$2,044.00
+	[blurred]	55	\$572.04	\$1,193.00
+	[blurred]	54	\$666.59	\$1,392.00
+	[blurred]	51	\$666.48	\$1,386.00
+	[blurred]	48	\$510.74	\$1,062.00
+	[blurred]	38	\$343.64	\$718.00
+	[blurred]	38	\$403.21	\$840.00
+	[blurred]	30	\$406.65	\$849.00

An extra \$406 in 30 days, an extra \$2,301, these people are making extra money simply by distributing their link, which is exactly what you'll be able to do with ProM, **see your access area for our ready made system.**

So hopefully after that little explanation those of you who were not familiar with what an affiliate is or how they make money will now be fully up to speed.

## your link

So before I became side tracked with that explanation I mentioned your link, which is essentially the first step.

Please follow these instructions to get your link to use with ProM.

*NOTE: AltDefy 383k is still used as the main example, but is now closed / not available to new customers. So the ready-made system we've created for you (which you will find in your access area) is different from the examples...it is now AltDefy.*

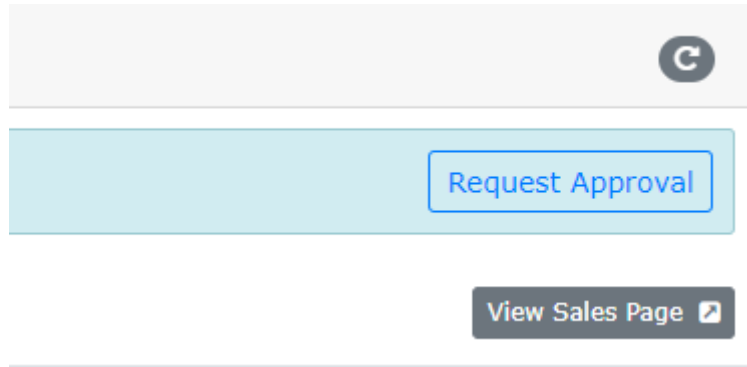

### step 1

Click the following link > [Click Here](#)

Please note, clicking the link will open in the same window, so you will need to click back on your browser after obtaining your link to return to this document.

### step 2

Then on the affiliate sign up page click request approval as the image below shows.

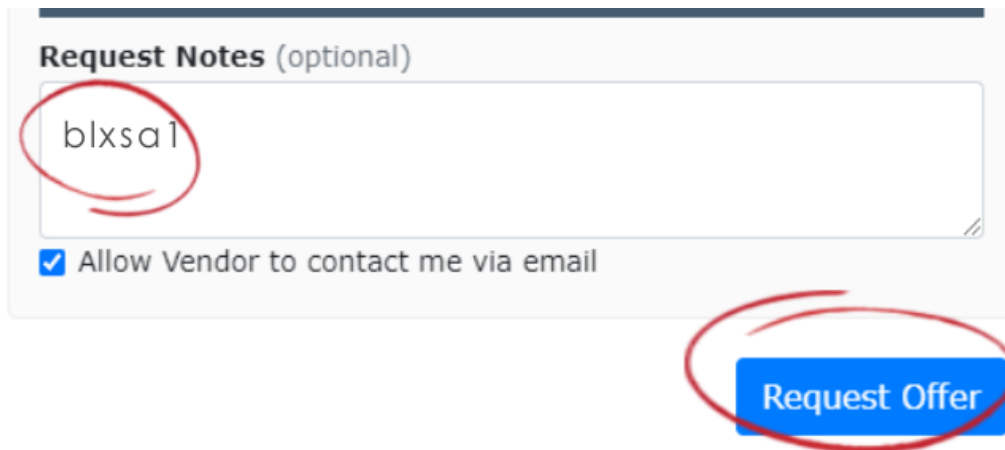

step 3

When you click request approval a box like the one pictured below will open, when it does you need to do two things in order.

**Number 1:** copy this code: **blxsa1**

And then paste the code into the box under 'Request Notes' as the image shows below.

**Number 2:** After pasting the code into the box click the blue button that reads 'Request Offer'

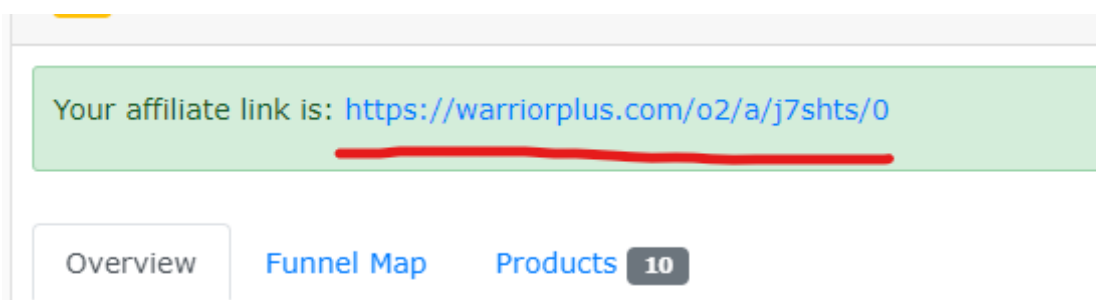

Using the code as instructed will ensure you are approved for this offer even without any previous sales statistics or history (so even if you are a complete beginner).

Without the code, you will not be approved so please make sure you copy and paste the code before clicking the button.

Once you are approved which normally takes place within 12 - 24 hours (you will receive an email letting you know), then you will need to copy your affiliate link which will look similar to the link in the image below. And make a note of it ready for the next step.

I recommend pasting the link into a notepad on your computer.

## core: doc

At this point you should now have your affiliate link, if not, go back to the last step and do that now because you will need your affiliate link for this step.

Next you need to open up the special Google doc we've created for you to use. You can either do that inside the ProM access area or click the following link.

*NOTE: AltDefy 383k is still used as the main example, but is now closed / not available to new customers. So the ready-made system we've created for you (which you will find in your access area) is different from the examples...it is now AltDefy.*

[Click here to open your Google doc](#)

With the doc open the first thing you need to do is make your own copy of the doc, and then edit the doc to make it specific to you, with your link embedded (so you can make money when someone reads it and clicks the link).

Rather than try to explain how to make your own copy of the doc, edit, add your links and save as a PDF etc in this document I made you a video detailing each step so it's easier to follow - **see Prom access / training area.**

Once you have edited your own copy of the document, added your links and saved it as a PDF it might look something like the example we made and used ourselves which looks like this:

Our PDF in the Altdefy 383k example made us an extra \$516.00 over the 30 days, most of which was achieved in roughly 2 days which I'll show you, and explain in a moment.

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

Product	Tracking Code	Hops	Clicks	Sales	Conv. Rate	Revenue	Refunds
AltDefy 383k	pdf	304	135	21	7%	\$516.00	0

If you would like to take a look at the example PDF (as used in the project shown above) so you can get a feel of what yours will look like and where your links will be, click the following link.

[View Our Finished PDF - Click Here](#)

*\*Please note, the links inside the PDF are no longer valid as AltDefy 383k (the product) is now closed / not available to new customers.*

## ProM system: level 1

With your doc edited (see access area for your ready-made doc), turned into a PDF and hosted, all of which is covered in the training video, the next step is to give the PDF away for free. We've included two sections which detail how you can do this, level 1 & level 2.

Level 1 will take you through a number of cost free ways in which you can distribute your finished PDF.

### methods

#### method 1

Do you already have an email list?

If you do, then sending your subscribers a no-strings, completely free PDF will work amazingly well, here's a couple of recent examples...

<p><b>Its in 7 days] Your PDF &amp; Direct Link</b></p> <p>delete   Copy to Drafts   Settings   Spam Score</p>	<p>🕒 Send 1 day after the previous message.</p> <p>33.1% opened</p>
<p><b>Your Give2Profit System' Is Enclosed (Download link)</b></p> <p>delete   Copy to Drafts   Settings   Spam Score</p>	<p>🕒 Send immediately</p> <p>34.2% opened</p>

Here's some more results using the example PDF I mentioned above.

**[Thank You] Your PDF Download Is Ready (Link Inside / No Cost)**

Sent to **1,495** subscribers in "Active Subscribers"  
09:50 PM GMT+1.

Includes **8 additional lists**

**39.6%** **5.7%** **0.07%**  
OPENED    CLICKED    BOUNCED

View Stats | Review Message | Copy to Drafts | Copy to List ▼

Don't have an email list of subscribers? Don't worry we'll show you how to get a substantial email list and a free autoresponder in level 2.

## method 2

Do you use Facebook?

If you do, then there are many ways in which you can give away your free PDF, especially because you are not even asking for an email address in return. It's as simple as adding a couple of lines of text and the link to your PDF.

You could put this on your own profile or find Facebook groups which fit or resonate with the content of your PDF and put the short post in there. I did this very thing as an example for you, see below.

Free Crypto System - Free PDF - Free Download

<https://drive.google.com/.../1mLfaDLEAynsKW0g6I7hgXX.../view>

[View insights](#)

291 post reach >

As you can see, all I used was one line of text:

I.e.

**Free Crypto System - Free PDF - Free Download**

Followed by the Google Drive link to the PDF

That's all there is to it, now multiply that simple post by as many related Facebook groups as you can find and within a very short time you'll have people opening and reading your PDF, and some will click the link and buy.

Easy stuff right? and it's free to do.

### method 3

What other Social Media / Platform Do You Use?

The list of social media and messaging platforms is massive and you might be a member of who knows how many. So think about it, how difficult would it be to drop a quick line or two (and the link) into Twitter, Discord, WhatsApp etc, etc?

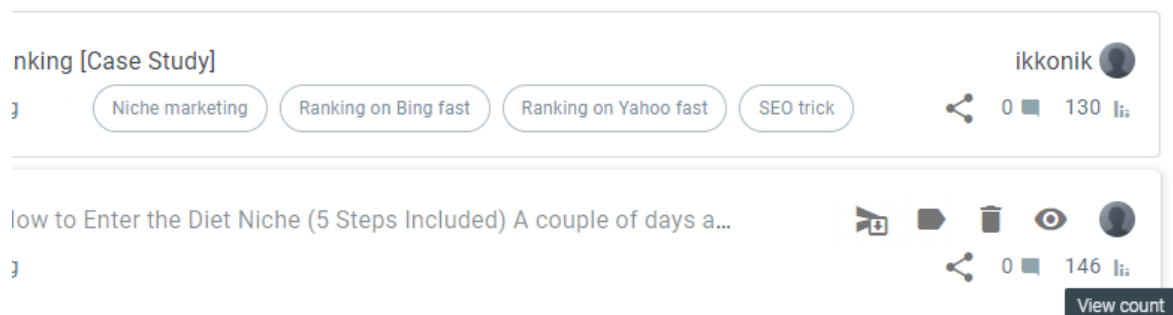

It's pretty easy when you think about it... you're simply giving something away for free.

## method 4

Do you have your own blog?

If you have a blog, free or otherwise, and you already get some traffic, well then take a little snippet or teaser section out of the PDF, use it as a blog post and then tell the reader to download the free PDF to read the whole thing.

Don't have a blog, and don't want to create one from scratch... you could always use Blogger.com (totally free).

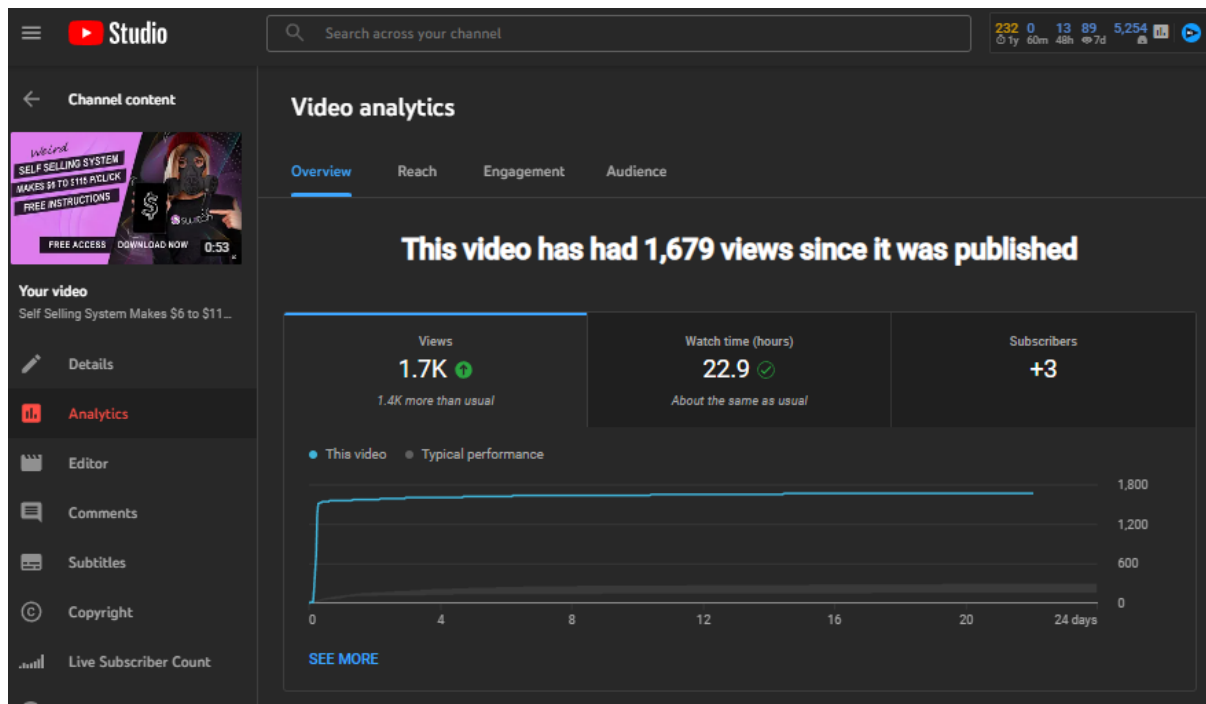

Ok, so I'm not giving away PDFs in this example, but I could, and so could you... and again this is totally free to do.

## method 5

Do you use YouTube?

Not everyone likes making videos, I get that. But if you do, then make a quick video talking briefly about the PDF and tell viewers to click the link under your video to download the complete PDF for free (no email required). You'd be amazed at how well this one solution will work.

That's what I did with the video you see below. Which for some reason went just a little viral over the first couple of days achieving 1679 views in total (over 24 days).

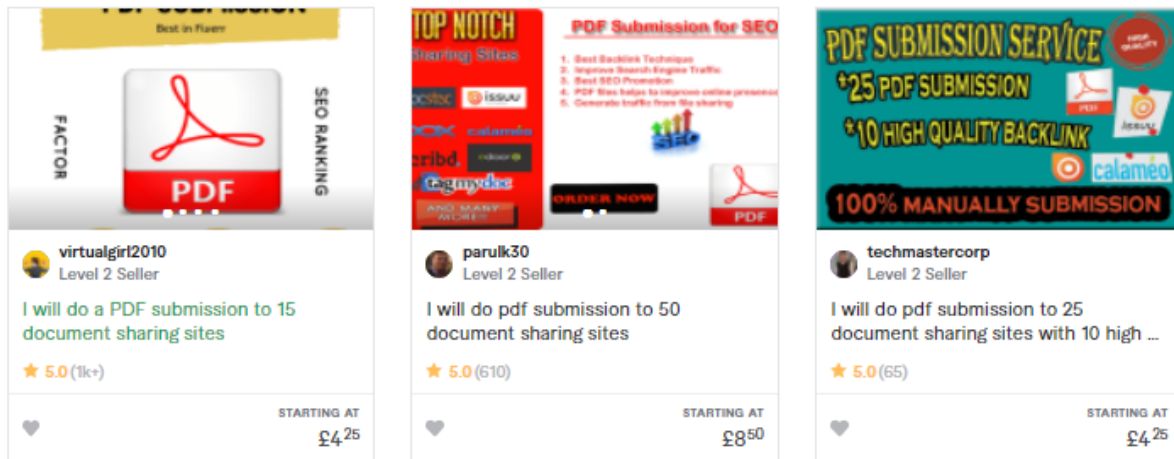

## method 6

What about doc sharing?

Document sharing sites might be old school, but they still exist, they still rank and they still get traffic.

Think about sites like slideshare, issuu etc. There are lots of them out there, most of them perfect for dropping your PDFs.

Better still if you have \$5 you could hire someone on Fiverr.com to blast your PDF out to anything from 10 - 50 document sharing sites.

## method 7

Could you use any of these?

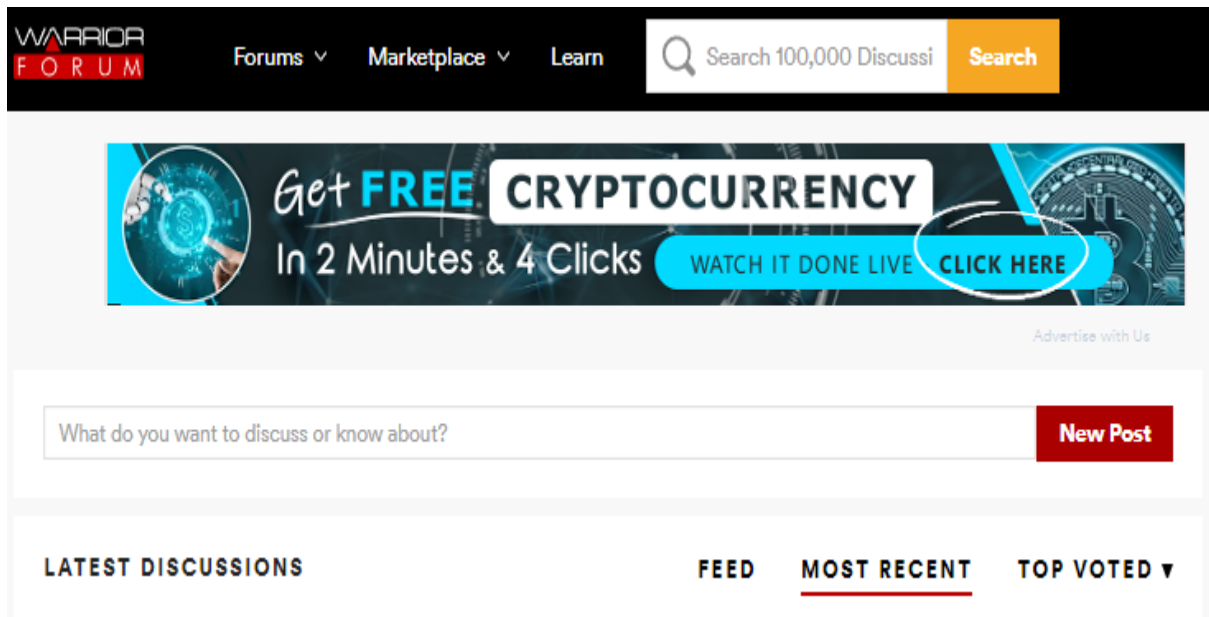

TikTok, Instagram, Pinterest, Q&A Websites and Forums, Reddit, LinkedIn... I'm not going to tell you that I use these personally, because I'm getting on a bit lol... so I'm not massively into these platforms.

But if you are, then these platforms and many others just like it could give you the ability to get your free PDFs in front of a lot of people, some of whom will read, click and buy.

## method 8

Go Old School?

Remember Article sites and Forums? yeah, I know, very old school, but they also still exist and they still get traffic. We're actually back using Warrior Forum ourselves (that's our crypto ad at the top of the page).

Now of course I don't mean paying for a banner ad like we're doing. I simply mean create a post or whatever they are called these days.

## method 9

Give It Away On Microsoft For Free?

Microsoft ads aren't free, unless you use one of their free ad credits (Microsoft Ads Coupon Codes).

Truth is Microsoft are always looking to increase market share, which means free ad credits are pretty easy to come by at the time of writing.

If you're looking for \$100 Microsoft Ads Coupon Codes, try a Google search, there are plenty available at the time of writing.

Microsoft Ads Coupon Codes

Unfortunately I can't put specific codes in this document because they often change each month.

## ProM system: level 1 summary

As you will have noticed, level 1 is all about using free assets to get your PDF in front of people, so they will see it, read it, and hopefully click the links inside, so you can receive affiliate commission on one or multiple products when the reader buys.

And while these methods are free, they still work really well!

## ProM system: level 2

In level 2 we'll show you how to create a list in days, we'll show you where to get an autoresponder for free (which you will need if you are building and mailing a list), and we'll show you the tools and pages we use, even the page we're currently using for the project you have access to, which you can copy.

## your free AR

As mentioned above, in order to grow a list of subscribers who you can mail details about your PDF to, you will need an autoresponder.

But if you are just starting out, a monthly cost is probably something you can do without which is why we've included free use of Aweber.

You've probably heard of Aweber before as it is perhaps the best known mainstream Autoresponder online, and it's been around for literally years.

So if a free Aweber account helps, simply click the link below.

### [Click Here To Get Your FREE Aweber Account](#)

*About your free Aweber account: Your account will remain free upto a maximum of 500 subscribers after which you will be charged a monthly fee depending on the amount of subscribers you have. When you have 500 or more subscribers you should be able to make far more than the monthly cost of your Aweber subscription with just one promotion using ProM.*

## how it works

Level 2 is all about amassing a subscriber base quickly (in days) so you can mail those new subscribers access to your PDF, because this is the quickest way to make a good amount of sales.

How do you do it? Well nothing new I'm afraid. The process is old school but when the page is right as ours is then this process is still a winner.

## You will need

First of all you will need a squeeze page. A squeeze page in case you don't know is a pitch page which convinces the visitor to enter their email address in return for something, in our case that something is our PDF.

Now in order to get maximum sign ups the squeeze page needs to be pretty good. The image you see below is the one we used for the example product which promoted AltDefy 383k.

Below the image you will find the live link to our squeeze page so you can take a proper look so you can create your page based on ours (if you wish)

*NOTE: AltDefy 383k is now closed / not available to new customers. So while we have left the squeeze page below online for you to see (as an example) links to the end product (AltDefy 383k) are no longer valid.*

Our Squeeze Page:

[Live Link To Our Squeeze Page](#)

The next thing you will need is the thank you page, I'll explain why in a moment. Our thank you page looks like this... see below:

## Congratulations Your **11 Into 3825** Instructions Are Ready

We have sent your access details to the email address you entered on the last page. Please check your email account / folder for your 11 Into 3825 welcome email & click the link in the email to access.

Access The Full System Now

[Click Here](#)

## level 2 steps

The steps, like any squeeze page system are pretty straight forward, albeit with a couple of subtle tweaks.

### **It works like this**

The visitor (which we call a prospect) see's the squeeze page.  
Prospect opts-in (adds their email address).

They need to add a real email address to get access

After opting in they are redirected to the thank you page

The thank you page doesn't actually deliver what they opted in for.

Instead it gives them instructions to check their email folder for access, and the big green button you see up there, well that button links straight to the offer (AltDefy 383k in this example) through an affiliate link.

## **Why not just give the prospect the PDF access on this page?**

We'll for one, we want people to use their real email address so we can follow up with them, that way if they don't buy first time around we can keep reminding them via email (using our autoresponder).

And the second reason is... although we give the prospect very clear instructions on how to access our PDF on this page, all many will see is the big green button, and click it thinking that gives them access.

What it actually does is take them straight to the AltDefy 383k sales page (in this example) through our affiliate link.

That way the sales page may grab their attention, and they may buy there and then without even reading our PDF.

## **page 1, page 2, deliver**

Recap... prospect see's squeeze page, opts-in > they are then taken automatically to the thank you page > at the same time our autoresponder delivers our PDF.

This means we capture the lead so we can grow our list to sell this product (AltDefy 383k in the example used) and other products whenever we wish.

We have an opportunity / potential to sell Altdefy 383k (in this example) directly from the thank you page, remember our link is in the green button.

And lastly we deliver the PDF automatically so we have the potential to make sales from inside the PDF when a reader clicks one of our links.

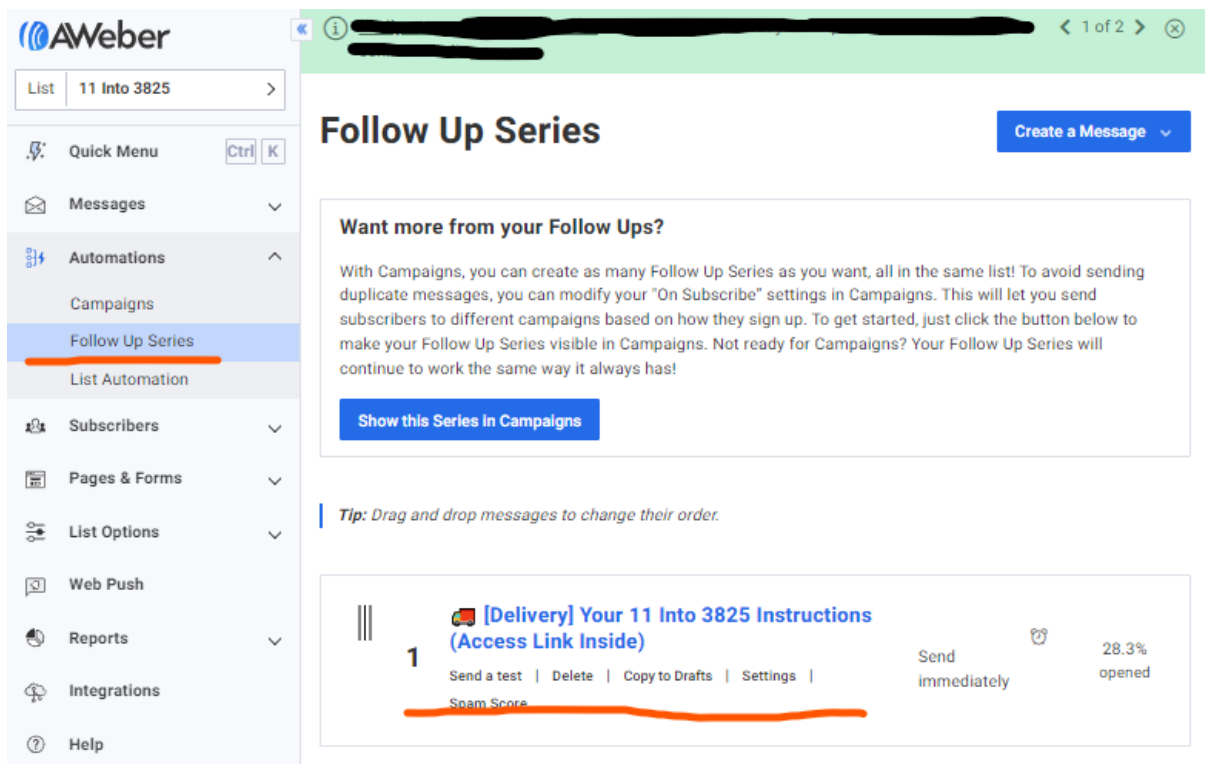

you will need

A HQ squeeze page. We used [Clickfunnels](#) to create our squeeze page.

A thank you page. Again we use [Clickfunnels](#) to create our thank you page.

We create a list specific to this offer in [Aweber](#)

We create a follow up email in aweber to deliver our PDF

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

For more details on setting this up please see the video in the ProM access area.

## how we build our list in days

In order for us to build our subscriber list in days so we can make money quickly we use PTC and solo ads, both of which come with a cost.

## method 1

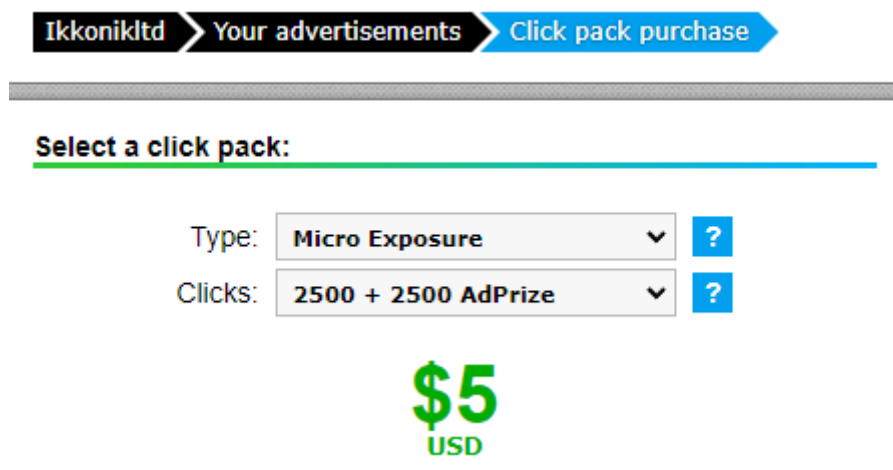

PTC means Paid To Click, there are lots of sites online which people use to earn money by simply clicking an ad and remaining on the site for a required time period.

The money these people earn for clicking an ad is pretty small, but the fact that they are doing this to make some extra money in the first place tells us that those people are interested in making extra money online... obvious right?

So when they click our ad and see our page (squeeze page) then there is a very good chance they will opt-in which means we have a new subscriber who is 100% interested in making money online.

They opt-in and our system does the selling for us. Best of all, advertising with PTC sites is ridiculously cheap.

For example, we use NeoBux, and as you can see from the image below the cost is tiny... E.G. 2500 clicks for \$5

The screenshot shows a navigation bar with three items: 'Ikkonikltd', 'Your advertisements', and 'Click pack purchase'. Below the navigation bar is a section titled 'Select a click pack:'. Under this section, there are two dropdown menus. The first is labeled 'Type:' and is set to 'Micro Exposure'. The second is labeled 'Clicks:' and is set to '2500 + 2500 AdPrize'. Below these dropdowns, the price '\$5 USD' is displayed in a large green font.

We would recommend you set the exposure to 'Standard' though, so people have to actually remain on your site for a period of time, rather than just clicking and moving on.

Standard exposure will obviously cost you more but you can still get 250 clicks for \$5.

**Select a click pack:**

---

Type:  ?

Clicks:  ?

**\$5**  
USD

[Click Here to go to NeoBux](#)

Create a free account, then click advertise, set up your ad and try out a cheap package...

...where else are you going to find 250 potential subscribers interested in making money for five bucks?

## method 2

Solo ads, which is our personal favourite. For the best solo ads online (in our opinion) go to [Udimi](#). Open a free account if you have never used [Udimi](#) before.

Next go to 'Find Sellers' in the top menu and set your filters - see image below.

Personally I always like to set 'Got Sales' to 50% and keep the price as low as possible. Got sales means what it says.

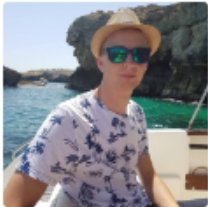

People who purchased a solo from these sellers actually got sales as a result (not just subscribers).

And when you use a squeeze page like the one we do, we're pretty much guaranteed sales whenever we buy a solo ad... see below.

Price (max) 0.50    Niche Marketing    Ratings 100+  
Got sales 50%    Repeat orders 30%+    Sort Sales ↑

Favorites    Keyword    Save Search    Load Saved

Found 3 sellers. [Reset filter](#)

**Mantas Pocius**  online 40¢

Top 5 most sales in April || 100% T1 || 15% OD || Buyers included!  
Fast Delivery \*\* Perfect fit for BizOpp, MMO, Crypto, Forex  
and others 63%

 328 / 1

 Past order for 125 visitors on 2 Jun 2022. Rating: none

**Athanasios Hatzikir...**  49¢

**\*\*NEW TOP QUALITY traffic with BUYERS included!\*\*** 95%+ Tier 1  
traffic! 10% OD. Internet Marketer, product creator, Solo  
Ad Seller Since 2013! 74%

 182 / 1

**Igor Varoscic**  44¢

90%+ Top Tier Traffic! 10% Overdelivery for a Limited time! 1,000+ New  
Leads Added Daily! Please visit my PROFILE to get this offer! 75%

 957 / 1

In this example we purchased 100 clicks at a cost of \$45 (\$0.45 per click).

### Order Info

Seller	Faizal James. You have 3 orders with this person
Order start date	[REDACTED]
Early start	Allowed. Seller can start anytime, even immediately
Visitors	100 visitors for \$45.00. Cost per click: \$0.45
Udimi tracking url	[REDACTED]
Your original link	<a href="https://www.7dr.co/11-into-3825">https://www.7dr.co/11-into-3825</a>

And the result of this run in instant sales was \$73.67, or \$28.67 profit.

Plus I received 46 new subscribers, 42 of which are still actively opening my emails. That means I can continue to market to them for free.

 <b>AltDefy 383k</b> KleverSystems	13	4	30 %	\$5.67	\$24.56	\$73.67
--	----	---	------	--------	---------	---------

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

Using a solo ad is also very easy, all you need to do is pop the URL of your squeeze page in the box, choose the date that you would like the solo ad to begin, choose the amount of clicks, and then pay... that's it.

See below.

\$0.44 **100 clicks** 24 JUL  
seller's minimum

Prime filter    Only top tier    Only mobile    No mobile

Allow the seller to start traffic delivery earlier, than scheduled (24 Jul)

Total: \$47.00           

*\*AltDefy 383k is an example only. Your ready-made system is different from the example.*

### method 3

Lastly, **Mega Mail Out**... If you [click here](#), this marketer will mail your ad (link to your squeeze page) to over 35,000 of his own subscribers for under \$15. This works just like a solo ad.

## ProM system: level 2 summary

Although the methods we've mentioned in this document for creating a list of subscribers (level 2) are not free, they are super fast and highly effective when done right.

When we say done right we mean, you must have a HQ squeeze page, and you must have a sales process set up behind that squeeze page as we've explained in this document.

That way you are essentially getting paid to build an email list which you can use again and again... which is what we do.

For more details on editing your ready-made doc (to target AltDefy) and setting up pages etc please watch the videos in the ProM access area.

Thanks for reading, and best of luck promoting.
